I'm not sure if Beth had mentioned that I'm new to the 401(a)(2) process, and it looks like many people aren't familiar with it, as we're used to the traditional 401 cert process, which is apparently 401(a)(1). You might have more experience than I do. It makes a lot of sense to coordinate with Ecology on the cert.

I'm talking with Ellie later this week, and I'd be happy to organize a call with everyone if there's interest or if you prefer to talk directly, that works great too. Thanks for everyone working on these 401 certs!

Hi Marilyn,

I'm working with Ellie Key from Ecology on a 401(a)(1) certification for the dams because they discharge directly into state waters. We're asking Oregon for a 401(a)(2) certification since Oregon's waters are downstream of the permitted discharges and could be affected.

Hello Jenny – do you happen to know who at Ecology will be reviewing the Columbia dam permits under Section 401(a)(2)? I would like to check in with Ecology on their process.

Thank you,

Marilyn Fonseca
